🏳 Speaks English and Spanish.

🪪 A Short Intro for the BBC

I started my career in law enforcement, where I quite quickly moved up the roles from Police Constable on a response team to acting Detective Sergeant.

Over the past 6 months I have dedicated all of my time toward my passion for programming. I have created demonstrable websites from scratch.

I believe I would bring energy, passion, and a working knowledge of the skills required for this role.

💼 Professional Experience

Detective Constable, Metropolitan Police Service

02/2020 – 09/2022 | London, United Kingdom

- Delivering briefings, mentoring officers, **taking accurate victim statements**, attending court, **producing quality case files**, attending emergency calls.

‹/› Projects

TripSelector - Inspiring Travel ⤢

A simple web app that generates random travelling journeys.

It still needs some work (currently making a responsive design, more countries to be integrated with ChatGPT, eco off-set filter), but my team are proud of what we achieved in just **2 weeks.**

See My Portfolio Site ⤢

🎓 Education

Web Development, Le Wagon ⤢

10/2022 – 12/2022 | Paris, France

- 9 week full-time (8am-5pm) intensive bootcamp
- Came 2nd in class **Hackathon**! (out of 54 students)
- Learned and used HTML, CSS, Bootstrap, ES6, SQL, **Git/Github**, **Ruby on Rails** among others.
- Designed, implemented and **shipped an AirBnB clone** to production.
- Pitched a user story and designed a web app TripSelector, implementing and shipping to prod in 2 weeks in a team of 4.

BA Hons Philosophy, Royal Holloway, University of London ⤢

09/2016 – 07/2019 | London, United Kingdom

Undergraduate degree in Philosophy, with dissertation on argument logic and moral principles.

🧩 Core Skills

SQL (PostgreSQL, SQLite3, Migrations, Seeding),
Ruby (With rails integration, and tests with Rspec and Rubocop),
HTML5, **JavaScript** (ES6, Webpack, Babel, Redux, ESlint),
Git, **Github**, **CSS** (SCSS, SASS, Bootstrap)

✏ Currently Learning

React.JS

I'm learning this because of its re-usable components. I think this is an asset particularly when creating complex applications.
